Boil Water Notice

Tuesday, May 18, 2021

Due to reduced distribution system pressure caused by a line break, the Texas Commission on Environmental Quality has required the North Hardin Water Supply Corp. public water system to notify all customers on BEN D SMITH RD FROM SWINNEY RD. TO OLD KOUNTZE RD., AND OLD KOUNTZE RD. TO BISCAMP RD to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions).

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, the public water system officials will notify customers that the water is safe for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, the public water system will issue a notice to customers that rescinds the boil water notice in a manner similar to this notice.

If there are any further questions or concerns, please contact our office at 409-385-7355.

Bobby Rogers, Manager
